EXPERIENCE

Digital Experience Designer & Builder

Independent Practice | Digital products and client work

📅 Jan 2026 – Present 📍 Vancouver, BC

Designs and builds digital products, tools, and client projects from research and interaction design through working front-end code, refining how AI supports the build process.

- Designing and building **Bezier Loupe**, a **Figma plugin** that measures visual density and competing signals in a selected frame as Calm, Lively or Loud, with 12 checked properties and **469 automated tests**.
- Designing and building **My Morning Door**, a **Chrome extension** that turns the new tab into an optional, multi-sensory pause before the day starts. Published on the Chrome Web Store.
- Leading research, interaction design and front-end prototyping for **Nookfare**, a concept that matches stays to sensory preferences for travellers overwhelmed by choice. Live prototype in **React, TypeScript and Tailwind**.
- Designing and building the **website and booking questionnaire** for **Himalayan Green Trips**, a travel agency in Nepal.

Digital Creative Team Lead (promoted)

Éminence Organics | Award-winning organic skin care

📅 Oct 2022 – Jan 2026 📍 Vancouver, BC

Led the digital creative team from campaign direction through production and delivery. Worked with creative, marketing and website teams and leadership to establish visual standards, asset structure and AI guidance.

- Designed and implemented a modular **Digital Visual Style Guide** that unified brand standards, accessibility principles and digital design patterns, enabling more consistent execution across platforms and channels.
- Developed **AI-enabled creative workflows** and governance frameworks, training cross-functional teams in image and video production while maintaining brand consistency and quality standards.
- Led the delivery of digital experiences and campaign content across **web, email, social and paid channels**, aligning photo and video production, post-production and asset delivery with visual systems and campaign frameworks.
- Embedded **accessibility standards** across digital experiences through inclusive design principles, metadata structures and **WCAG**-informed content production practices.

Digital Content Specialist

Éminence Organics | Award-winning organic skin care

📅 Mar 2020 – Oct 2022 📍 Vancouver, BC

Supported the brand's digital campaigns through visual production and structured the shared asset library to make files easier for the team to find and use.

SUMMARY

15 years of experience in interface design, backed by **cognitive neuropsychology**. I've designed **digital experiences, design systems** and the production workflows that keep creative work consistent across channels.

At Éminence Organics I was **promoted to Digital Creative Team Lead**, setting the visual standards, building the structure for asset organization and bringing **AI-assisted workflows** into daily production.

These days, I'm also building **calm tech tools** that make digital experiences easier to take in. Bezier Loupe helps designers examine busy layouts and My Morning Door gives people room to pause before browsing and the option to add ambient sound when they need to focus. My work has grown to look more broadly at how content and systems can make space for different ways of thinking.

KEY STRENGTHS

</> Front-End Design & Build

Designs and builds websites, tools and working prototypes with AI-assisted front-end development, taking ideas all the way to a live link.

🧑 Cognitive Accessibility

Draws on cognitive neuropsychology training, WCAG-informed practice and user research with older adults in VR to make content clearer and reduce competing signals in interfaces.

👥 Creative Leadership

Led campaign work across creative, marketing and website teams and mentored designers and marketers through 100+ ADPLIST sessions.

📦 Visual Systems & Standards

Created a modular digital style guide and a searchable asset library that helped teams work to shared standards.

✨ AI-Assisted Creative Production

Developed guidance and trained cross-functional teams in AI-assisted image and video production while maintaining brand quality.

- Project managed **15 multi-stakeholder photo and video shoots**, aligning creative direction, production logistics and launch project timelines.
- Created the **information architecture** for the digital asset library: folder hierarchies, file-naming conventions and a separate system for working files.
- Built the **SOP for digital assets** with the team, and added standardized metadata to **6,000+** photography, video and design files to make the archive searchable.

Mentor: Visual Design & Creative Strategy

ADPList | Global mentorship platform

📅 Dec 2022 – Present 📍 Vancouver, BC

Mentors designers and marketers around the world in visual design and creative strategy, alongside ongoing design work.

- Conducted **100+ mentoring sessions** supporting designers and marketers across **10+ countries**.
- Recognized as a **Top 10 ADPList Mentor** for three consecutive periods from 2024–2025.

Artist Partner: Commercial Artist

Farmboy Fine Arts® | Commercial art consultancy

📅 Feb 2009 – Present 📍 Vancouver, BC

Creates and licenses original artwork for large-scale commercial interiors through a long-term artist partnership.

- Partnered with global brands to create **bespoke artwork** for hospitality, healthcare and corporate environments.

Visual Designer & Creative Producer

Epinette Media | Photography, visual storytelling and digital marketing

📅 Sep 2012 – Feb 2020 📍 Vancouver, BC

Founded and ran a studio providing commercial photography and digital design for business and editorial clients.

- Created editorial features for **Vancouver Magazine**, and commercial artwork and event coverage for **Mozilla**.
- Volunteered on **user research** with older adults in VR for the **Mozilla Foundation**.
- Produced and delivered high-quality **image retouching and compositing** for private clients and commercial projects.
- Designed visual content for **social media and email campaigns** and analyzed their performance to guide content decisions.
- Joined in-house teams at **QuadReal** and **Clearly** on full-time, on-site contracts through **The Creative Group** (2019–2020), producing presentation materials, infographics, landing pages and UI elements.

UI Designer / Visual Designer

Digital Rez International | Reservation systems for hospitality

📅 Oct 2005 – Feb 2012 📍 Sicamous, BC

Began a career in interface design working on reservation software for hospitality businesses.

- Designed and refined **reservation user interfaces and administrative dashboards** supporting booking workflows for hospitality clients.
- Delivered marketing assets across print and digital channels for international outdoor recreation brands.

TOOLS & TECHNOLOGIES

DESIGN & PRODUCTION

Figma, Adobe CC (Photoshop, Illustrator, InDesign, Lightroom, Premiere Pro)

WEB & DEPLOYMENT

Framer, Webflow, Vercel, GitHub Pages

FRONT-END (AI-ASSISTED)

HTML, CSS, JavaScript, TypeScript, Tailwind CSS, Vite, Next.js, Figma Plugin API

AI & WORKFLOW

Claude Code, Codex, Claude CoWork, Impeccable, Cursor, OpenArt, Lovable, Midjourney

PROJECT MANAGEMENT

Asana, Miro, Milanote

ACCESSIBILITY

WAVE, axe DevTools

EDUCATION

Certificate in Creative Leadership

IDEO U

Design Thinking Certificate

Interaction Design Foundation (IxDF)

User Experience Design

BrainStation

MSc, Cognitive Neuropsychology

Kansai Medical University

BSc, Clinical Psychology

Maranatha University
